Tuesday 30th January 2024

Dear Parents / Carers,

Health and Safety at Hoyland Springwood

We are currently experiencing a high level of staff absence, especially in our Resourced Provisions (both mainstream resource and The Hub) with also a number of children displaying similar symptoms.

Due to the levels we have seen, the school has contacted Public Health for advice.

The advice received is that any member of our school community with all the symptoms below should isolate for 5 days from the date the symptoms started, even if they are testing negative for COVID. The symptoms are:

- a high temperature. The **normal body temperature** is usually between 36 and 36.8 degrees Celsius. A **high temperature or fever is when your body temperature is 38 degrees Celsius or higher**
- headache
- shivers
- cough

Please be assured that we will monitor the situation closely and seek advice when needed from the DfE / Local Public Health team.

Kind regards

Mrs J Hunt
